

Lair

Modern & Modular

Lair stations offer a variety of options and capabilities best used for space division and multiple work surfaces. This versatile product's options include benching, L-shapes, U-shapes, glass divider panels, confab seat cushions, tall hutches, & lower hutches.

Lair is the industry's most modestly priced version of new style modular workstations. It is solidly constructed with metal legs and sturdy stretchers.

Modular

*Can be electrified with ECA Electrical.

Multi-Layer Station \$2380 as shown

Lair 6'x6' station with multiple "Layers" of storage.

Flush Height in Tiger Stripe \$2903 as shown

Lair Flush Height Station with Personal Storage Tower. 6'x7'6" overall size. Includes 71x24 Top with 47x24 Return.

Lair and Chassis stations can include electrical system and wire management.

Lair

Perimeter

PERIMETER is a new and unique divider system that creates space division easily and very cost effectively. This new invention can mount at the

Perimeter of each station, or split down the middle of multiple stations. These beneficial panels do not take any space from one staff member at the expense of another. Perimeter has aluminum frames with **frosted acrylic inserts or custom upholstered fabric inserts**. Two heights are stocked at 12" and 24". Widths are 24" to 84". The product mounts to desk tops with Aluminum posts. Perimeter works with Lair, Chassis, EL Express Laminate, and EL Status Desks.

Reception counters, both straight and L shaped, attach to Perimeter and create reception stations. Our affordable desk products, plus Perimeter and ECA electrical, create full office "cubicles" without paying for expensive full-height panel systems.

Perimeter Panels

			\$8

ASSEMBLY / SPECIFICATION HELP BELOW

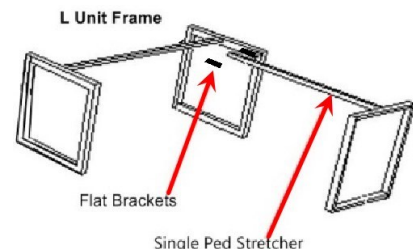

Lair products are modular for maximum flexibility, but require specification of multiple components to make a complete product. Tables consist of a table top, a leg or legs and a stretcher bar for support. Line drawings of common configurations are shown below.

All worksurfaces must have a stretcher BAR for support. Legs are non-directional. Stretcher is in the middle of the leg and attaches to the leg with screws, provided.

Single Ped Stretcher Bar (or Return)
Attaches to "O" Leg on Left and Screws to Top with self-taping screws. May need to be cut to fit with tops less than 71" wide.

The end of a Lair table can be an "O" Leg (left) or a Pedestal (right) shown above.

Perimeter

PERIMETER has aluminum frames with **frosted acrylic inserts or custom upholstered fabric inserts**. Two heights are stocked at 12" and 24". Widths are 24" to 84". The product mounts to desk tops with Aluminum posts. Perimeter works with Lair, Chassis, Express Laminate, and Status Desks. Perimeter is shown below in its variety of lengths and heights.

Posts mount with 4 screws through the removable base into the desk top.

Center Panel down the middle of both Desks using 2 Spacers.

Perimeter can mount in the middle of two stations, and NOT take up more space from one employee at the expense of another employee. This is a unique benefit of Perimeter. To mount the center panel down the middle of two symmetrical stations: Use 2 Spacers where shown (Red Arrows)

Use 4 Spacers 4 at the intersection of 4 stations,

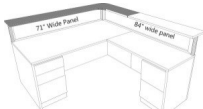

Further layout help is available, just ask.
